'Ike Pono - The Goal of A People

'Ike - The meaning behind this word is: to see, to know, to feel, to recognize

Pono - The definition of this word is: justice, things that are just proper and in perfect spiritual harmony with the universe.

When we are knowledgeable of our history, we will make things right for our land and people. It is this knowledge that will allow us to assert our sovereign rights thus enabling ourselves to actively move forward spiritually, mentally, physically, culturally and economically.

We deeply feel that 'Ike Pono is a goal that we have set, that as Hawaiians, we will achieve for ourselves. We must continue to search out and find an understanding that balances all aspects of being Hawaiian in 1993.

January 17, 1993 is a historical day in Hawaiian history because Hawaiians will be creating their own history. We would like to invite you and your organization to join us as we take a step towards Hawaiian empowerment and towards our future. This invitation is open to all Hawaiians and non-Hawaiians (who support Hawaiian self-governance).
